Interim FLSIC SEA 04L5/NSLC Gross Effectiveness Breakdown Analysis

**CDR Tim Wilkins
SEA 04L5B
23-24 October 02**

Outline

- Top Breakdown Gross Effectiveness
 - G & J Source Code Analysis
 - 2 years of 3M data
- Broken out by TYCOM/Ship Class
 - Sample by ship class to discuss
 - Remainder in backup
- Definition:
 - G Source Code: Part not in ship's SNAP
 - J Source Code: Listed in SNAP, Not Carried

Active Ships by TYCOM

SUMMARY

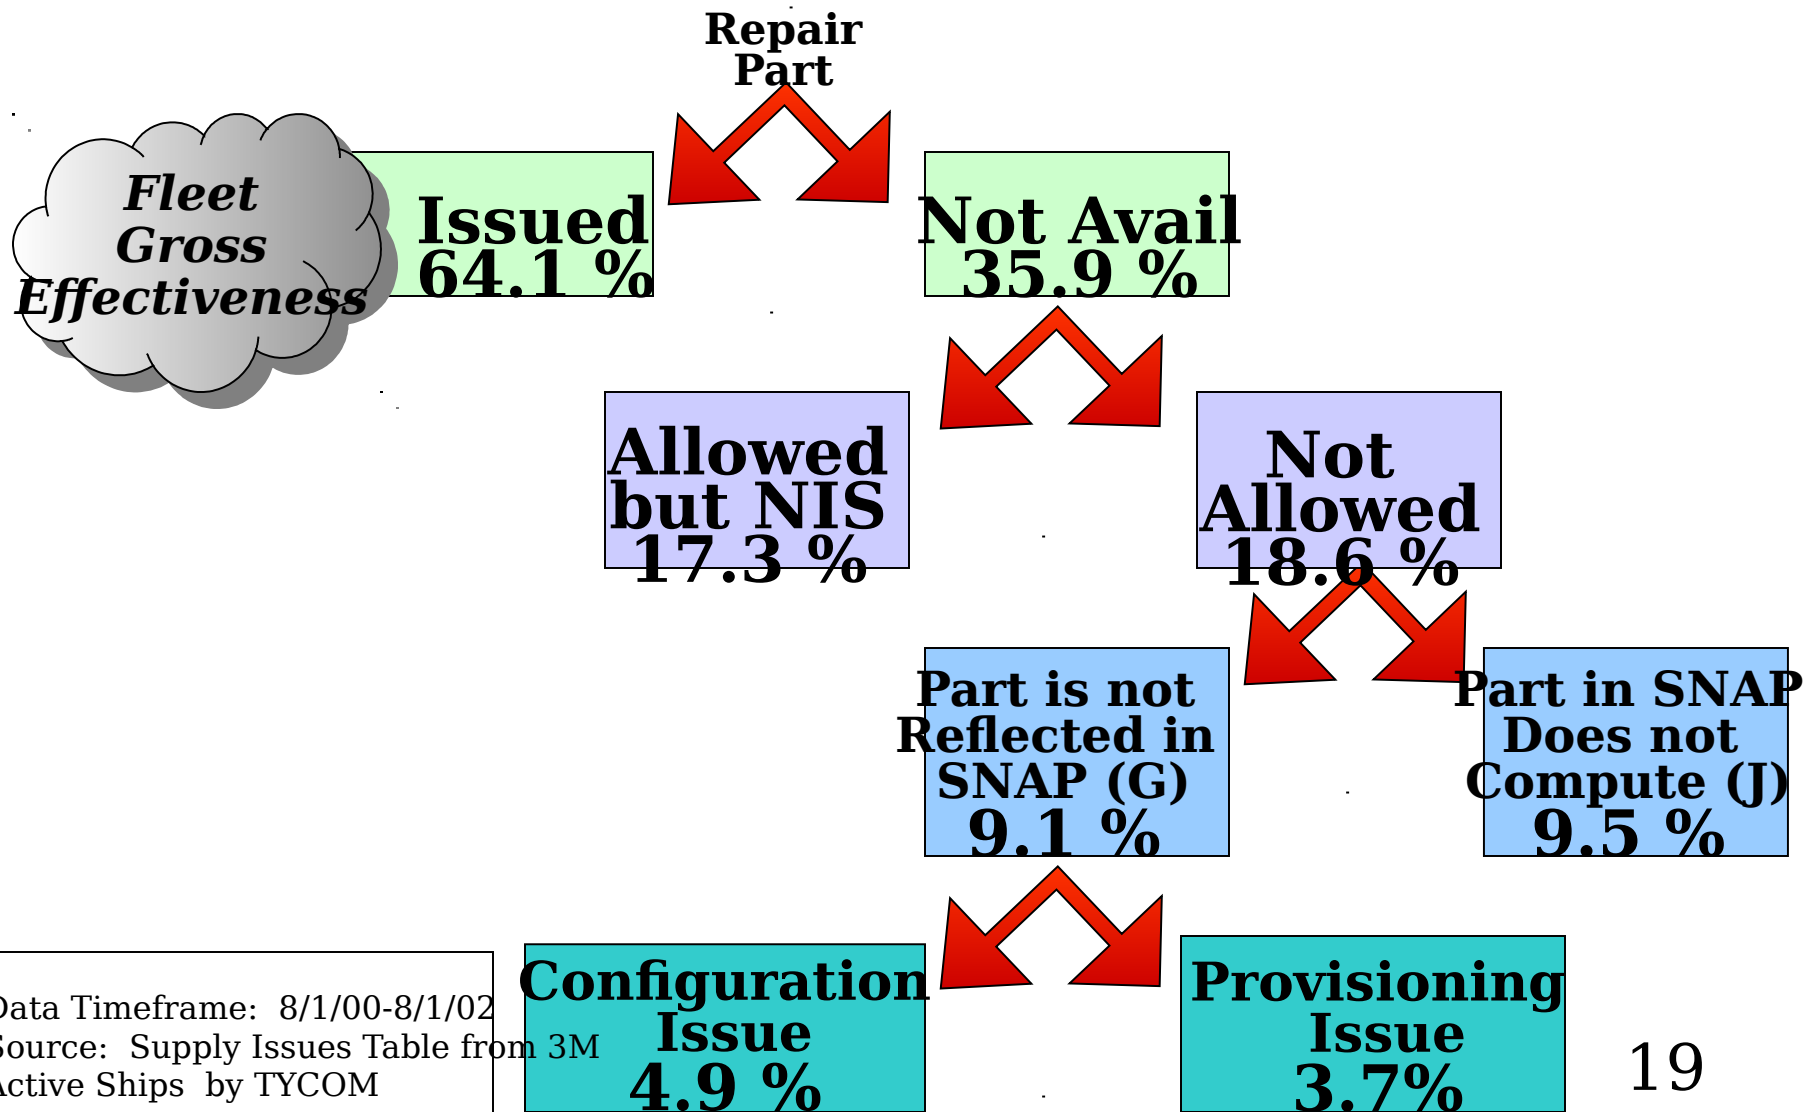

- Preliminary analysis over last two years of data suggests that CM may not be the driver
- Two areas of focus:
 - NIS Rates
 - Non compute "J" Source Codes

...may help explain the age old question of differences in LANT/PAC effectiveness...
